# Roles Available within JPA

---

JPA program offers two types of roles to their partners based on their go-to-market strategy and their partnership with Juniper.

Enable partner-led resale business, providing a well-structured set of resources, offering multiple specializations, market-leading incentives, and providing performance tracking capabilities to drive a highly profitable partnership.

Empowers partners to deliver a differentiated catalog of managed networking services that leverage Juniper Mist AIOps to increase operational efficiencies, improve SLAs, and generate new high-margin recurring revenue streams.

# Solution Reseller

---

# Juniper Partner Advantage Solution Reseller

Now is our time. That's why we're extending our significant investment in the JPA Solution Reseller Role. More money. More ideas. More commitment. There is market share to gain, and we have the hypergrowth formula to take advantage.

We are intently focused on modernized collaboration, experience-led selling, and building market-leading solution practices together. And we're increasing your earning potential and profitability by investing in your practice. All this, so we can accelerate your growth and strengthen our partnership even further as we take command of our future together.

This guide introduces the features and benefits of being a Solution Reseller: its key elements, how you benefit from becoming a partner, and where to find more detailed information.

**Solution Reseller Role classifies its partners into four partner levels:**

- |              |            |
|--------------|------------|
| ① Elite Plus | ③ Select   |
| ② Elite      | ④ Reseller |

# Why Participate as a Juniper Partner Advantage Solution Reseller?

The Juniper Partner Advantage Solution Reseller Role provides access to Juniper's software, hardware, and service solutions in a resell motion to your customers. Maximizing this role allows partners to deliver their service offering with market-leading, industry-recognized, and experience-first network solutions to solve today's most complex business challenges.

## This role includes:

- New initiatives, rewards, incentives, and specializations designed to drive incremental growth for your business
- Differentiate your practice beyond Specializations through Juniper Partner Assurance for Solution Resale
- Powerful dashboards that provide at-a-glance visibility into your business performance in real time
- Paths to success that guide partners in different functions with steps to deliver incremental growth and profitability
- Champions Program for your Sales, Marketing, and Technical individuals to reward them for their success. Access to recognition, rewards, PXMs, and the community to fuel continued growth
- Service Opportunities through Juniper Service Specializations to reward partners for developing rich Juniper practices and offering lasting customer experience

Partnering with Juniper Networks means you can benefit from a clear and consistent go-to-market approach with differentiated value across our AI-Native Networking Platform.

# Levels and Benefits

The Juniper Partner Advantage Solution Reseller Role has a four partner levels – Elite Plus, Elite, Select and Resellers – that supports you in realizing growth in your business and investing with Juniper over time.

| REQUIREMENTS  | ELITE PLUS | ELITE | SELECT | RESELLER |
|---|------------|-------|--------|----------|

## Training and Learning Requirements

### Sales Champions

The Juniper Champions Program brings together a peer group of proactive individuals in a unique, professional community network. Designed to help partners develop new capabilities, win business faster, and create outstanding customer experiences. Champions can reach the top of their game, speed sales, and win larger deals, while paving their path to achieving “Legendary” status.

Sales Champions will be well-positioned to win business faster by accelerating sales processes through prioritization of lead distribution, access to pre-sales tools, and invitations to virtual community events.

[Learn more](#)

### Technical Baseline

Designed to support your sales engineers and solution architects with a foundation of skills across the Juniper portfolio of solutions, this accreditation includes Juniper associate level certifications for Junos.

[Learn more](#)

### Specialization-centric Training

Designed to provide the flexibility to build Juniper expertise in areas that make sense for your business, Juniper offers specialization training and focused certification to support the complex environments your customers need you to transform.

To achieve any one of Juniper’s specializations, you will need to complete Juniper Network Certification Program (JNCP) certifications or defined accreditations to build your pre- and post-sales skills.

[Learn more](#)

# Technology Specializations

Juniper specializations cover several key areas of technology for strengthening customer relationships and improving margins. You can align your specializations to fit the area of focus for your business, and stack them to build complete solution expertise.

## SD-WAN and Session Smart Routing:

Juniper SD-WAN, driven by Juniper Mist AI™, enables exceptional IT- and end-user network experiences. Powered by Juniper Session Smart™ Routing and Juniper Mist WAN Assurance, it simplifies network operations and safeguards business matters from client to cloud.

## Wired and Wireless:

For partners who are using Mist AI Cloud to revolutionize wired and wireless enterprise networks, with AI-driven insight, automation, and actions maximizing user experiences, while delivering unprecedented simplicity, reliability, and security.

## Data Center:

For partners who are deeply focused on data center projects, to help their customers automate the entire network lifecycle with the turnkey Apstra System running on top of Juniper's award-winning switching, routing and security platforms.

## Routing and Switching:

Supporting partners specializing in providing routing solutions to enterprise and service provider customers, such as core to edge routing, data center interconnect and traffic management of carrier class, and highly robust and available transport networks for critical business services.

## Security:

For partners who provide enterprise and service provider customers with dedicated or integrated security that includes Juniper Connected Security solutions. It provides rich support in the form of focused rebates on Juniper's security portfolio.

# Service Specializations

## Support and Strengthen

Our Partner Service Specializations are designed to enable you to strengthen customer relationships, deliver more complete solutions, improve recurring revenue, and enhance business margins. Whether you choose to resell Juniper branded services or to deliver co-branded service offerings, our programs ensure you have the tools, training, and incentives you need to succeed.

### Partner Support Services (PSS):

PSS equips our partners to be the single face of customer support by providing comprehensive tools, in-depth training, and technical resources. As a PSS partner, you are empowered to create a seamless customer support experience, setting your brand apart.

[Learn more](#)

### Support Services Program:

SPP enables our partners with the skills and resources needed to confidently sell and renew services while providing performance-based rewards to drive growth and profitability.

[Learn more](#)

### Partner Assured:

Juniper Solution Reseller and Managed Network Provider Practices beyond the Specializations, bringing more value to Juniper customers.

[Learn more](#)

*Partner Support Services counts as a specialization for Select, Elite and Elite Plus members needing to meet the minimum JPA requirements. Participation in these service options is by invitation and requires a separate services agreement.*

# Managed Network Provider

---

# Juniper Partner Advantage Managed Network Provider

Welcome to the Juniper Managed Network Provider Role. This section will help you get started working in the dynamic and fast-growing market of managed services network-as-a-service opportunity powered by Juniper AI-Native Networking Platform.

## Step into the future of managed services:

The managed network services market is not just about providing connectivity; it's about offering solutions that are as dynamic and adaptable as the enterprises they serve. The Managed Network Provider (MNP) role equips you with the agility and differentiation required to lead in a high-growth, rapidly evolving market.

We're focused on enabling AI-native innovation, simplified service delivery, and flexible financial alignment. By streamlining network operations and empowering partners with advanced tools, we're helping you enhance customer experiences and capture new market opportunities.

This guide introduces:

- The core elements that differentiate the MNP role
- Key resources to enhance and expand your service portfolio offerings

# Why Participate as a Juniper Network Managed Network Provider?

## Why Partner with Us?

Partners with rich managed networking service offerings require a solution that increases top-line revenue while driving margin expansion and delivering exceptional service level agreement (SLA) to your customers.

Juniper's AI-Native Cloud Platform allows Managed Network Providers to ease deployment, lower operating costs, provide a leading user experience, and increase their overall win rate with their customers.

Partners will also have access to onboarding resources, service-creation support, and tools to accelerate time to market. The Managed Network Provider Role offers four service tracks within its technology catalog.

## These tracks provide training and certification so you can provide services for:

- Branch Security
- Location
- WLAN
- SD-WAN

As a Juniper Managed Network Provider, you will get the expertise needed to address your customers' challenges.

# Program Benefits

The Juniper Managed Network Provider Role offers a tiered model that helps businesses differentiate themselves by their commitment and success using the Juniper platform for their as a service GTM offering.

**Benefit Highlights:**

- Advanced Management Console: Managed Networks Providers enjoy increased monetization of their entire infrastructure, with simplified operations on a single, full-stack cloud platform with integrated AIOps for automated troubleshooting and full API programmability to support third-party equipment, systems, and applications.
- Finance Offers Designed for Cash Flow Alignment: Enhanced and scalable asset-light consumption models facilitate top line revenue growth for NaaS commercial offers.
- Service Creation Support: Practice enablement resources deliver tailored assistance for tech stack integration, cost modeling, and GTM resource readiness.

# Eligibility Requirements

| ENTRY-LEVEL ROLE REQUIREMENTS                                      | PARTNER LEVELS      |                |                 |
|--|---------------------|----------------|-----------------|
|  | ELITE PLUS PROVIDER | ELITE PROVIDER | SELECT PROVIDER |
| Ability to Provide Onsite Site Survey, Design and Deployment*      | ✓                   | ✓              | ✓               |
| 8x5 or 24x7 NOC  | ✓                   | ✓              | ✓               |
| Accepted Juniper Solution Resale Agreement and added MNP Agreement | ✓                   | ✓              | ✓               |

\* Partners in the Program are required to have the capability to provide onsite design and delivery of their service offering. The use of a professional services company is acceptable upon Juniper approval.

### Eligible Deal Guidelines:

The defining factor for deals aligned to Managed Network Provider role execution is the comprehensive ownership of Day 0, 1, and 2 support that a provider delivers to a customer as a service offer with contractual SLA deliverables. Under the Managed Network Provider role, the provider or the customer can hold the title of Juniper technology, with the provider owning the lifecycle of design, install, configuration, and management of the network.

### Required

For MNP Pricing and Incentives, a Partner MUST deliver all elements identified above under MNP Approved Pricing For MNP Pricing and Incentives, a Partner MUST be in good standing in JPA MNP Role

<sup>1</sup> Design, Install, and Config can be done by Partner, Customer, or Juniper Services

# Program Operating Requirements

| OPERATING REQUIREMENTS   | PARTNER LEVELS      |                |                 |

# Certification and Training

Eligibility to access products for in-market service delivery is contingent upon partners completing the certification requirements within the designated service technology track.

## Certification Requirements:

After entering the Program, Partners have until the annual compliance deadline, September 30th to complete their certification requirements. If an individual who completed the certifications left your company within six months of the annual compliance deadline, the individual's certification will count towards compliance. A partner must replace those certifications within the following certification period.

Partners who participate in both the Managed Network Provider Role and the Solution Reseller Role can satisfy both program certification requirements by completing one of the two program certification levels as long as the highest of the two is met.

# Certification Requirements

Optional but recommended: Junos Troubleshooting in the NOC

# Technical Support Definitions

We value the quality of your engagement with your customer. We stand behind you in supporting our joint offering. Below are the Technical Support Definitions.

**First Level Technical Support:**

Taking End User calls, getting complete information from End User regarding problems experienced by such End User, eliminating common End User errors, checking the network status page, reviewing Product feature release information, Product configuration guidance, delivering simple problem diagnostics on the Product, and escalating unresolved issues with written documentation detailing steps taken prior to escalation.

**Second Level Technical Support:**

Providing assistance to the First Level Technical Support help desk for issues that cannot be resolved through First Level Technical Support.

**Third Level Technical Support:**

Providing technical assistance to Second Level Technical Support personnel for technical issues that cannot be resolved by Second Level Technical Support.

## Technical Support Obligations.

|                                | ELITE PLUS PROVIDER | ELITE PROVIDER | SELECT PROVIDER |
|--------------------------------|---------------------|----------------|-----------------|
| First Level Technical Support  | Partner*            | Partner*       | Partner*        |
| Second Level Technical Support | Partner*            | Partner*       | Partner*        |
| Third Level Technical Support  | Juniper*            | Juniper*       | Juniper*        |

\* Partners will neither instruct nor encourage End Users to contact Juniper directly for any technical support. Partner's technical support personnel who have received training regarding the Products and use of the Mist Cloud interface will be authorized to contact the Juniper Second Level or Juniper Third Level Technical Support to resolve any problems that cannot be resolved by First Level Technical Support or Second Level Technical Support, as applicable.

# Tools & Resources

# About Juniper Networks

---

At Juniper, we strive to deliver network experiences that transform how people connect, work, and live.

By challenging the inherent complexity in the 5G and cloud era, our solutions power the connections that matter most – from education to healthcare to secure banking. Our commitment is to advance real outcomes for network teams and every individual they serve.

**It's that simple.**
